

RENSA STEEL

washing agent for galvanized surfaces

PRODUCT TYPE	RENSA STEEL is a very efficient citric acid based detergent for pretreatment of galvanized sheet-iron and zinc-coated steel surfaces before painting.
USAGE	<p>RENSA STEEL is a pretreatment agent for maintenance painting. It is primarily meant for washing new untreated zinc-coated and galvanized steel surfaces before painting with KIRJO or KIRJO AQUA paint for sheet-iron roofs. It removes very efficiently zinc salts, grease, dirt and other impurities.</p> <p>RENSA STEEL is also suitable for washing of previously painted sheet-iron roofs before maintenance painting.</p> <p>RENSA STEEL is environmentally friendly and biodegradable. It meets the requirements by OECD and by the Detergent regulation of European Parliament and the Council on detergents for biodegradability (OECD 301B, EC 648 / 2004).</p>
<hr/>	
TECHNICAL DATA	
pH	abt. 2 - 3
Dilution	For washing of and pre-treating surface to be painted: 1 : 3 (1 litre of detergent to 3 litres of water) For very dirty surfaces: 1 : 1
Spreading rate	abt. 40 m ² / 1 l undiluted detergent. Absorption of the surface, dirtiness, air humidity etc. factors affect considerably on the spreading rate.
Packages (availability varies by country)	1 L, 5 L
SAFETY MARKINGS	See Safety Data Sheet.

DIRECTION FOR USE

Dilute RENSA STEEL with water depending on the purpose of its use:

For washing of and pre-treating surface to be painted: 1 : 3 (1 litre of detergent to 3 litres of water)

For very dirty surfaces: 1 : 1

Remove loose dirt and dust from the roof by brushing.

Wet the tile surface with water before applying the detergent. This prevents the detergent from absorbing too much and drying too fast.

Apply the detergent to the surface to be cleaned by using e.g. a brush or low-pressure spray (so-called garden spray). Let it act for abt. 10 minutes. Enhance the cleaning effect by brushing strongly.

NB! The detergent must not dry on the surface to be cleaned - wet the surface again with the washing fluid, if needed.

Rinse the surface thoroughly with a plenty of clean water.

RENSA STEEL is an efficient, but environmentally friendly and biodegradable product.

However, using the detergent must be followed with a reasonable caution.

Avoid skin contact and breathing the spray mist. **Protect eyes from splashes.**

More information from product's Safety Data Sheet: www.teknos.fi

The detergent may harm garden plants – avoid unnecessary splashing. The most sensitive plants can be covered or wetted with water before the treatment.

Protection**ADDITIONAL INFORMATION** MUST NOT FREEZE.

The information of this data sheet is based on laboratory tests and practical experience. The figures are for guidance only and depend on, for example, colour and gloss. As we have no control over the use and application conditions, we are only responsible for the quality of the product and guarantee that it conforms to our quality control. We accept no liability for any loss or damage resulting from the application of the product contrary to the directions or the intended use. The latest versions of our data sheets, material safety data sheets and system sheets are on our home pages www.teknos.com.
